

Lesson 4: WHAT IMPACT DOES AIR POLLUTION HAVE ON THE ENVIRONMENT?

- I know what impact air pollution has on the environment
- I know what we can do as individuals to reduce air pollution

Part I: Quick quiz

1) Air pollution impacts human health by:

- a) Causing loss of hearing
- b) Causing respiratory problems and heart disease
- c) Causing hair loss

2) Name two environmentalists you learnt about during the previous lesson (clue: one of these can be found on your knowledge organiser at the front of this booklet!)

1) _____

2) _____

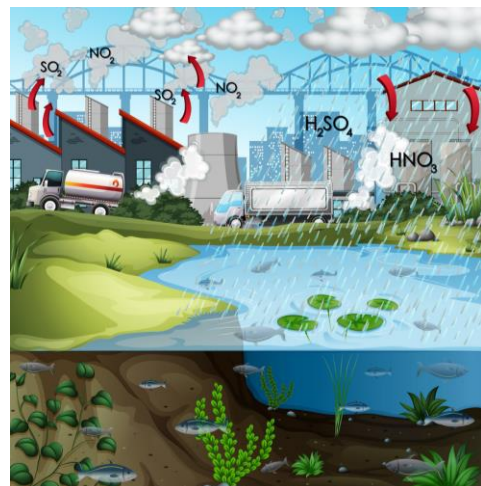

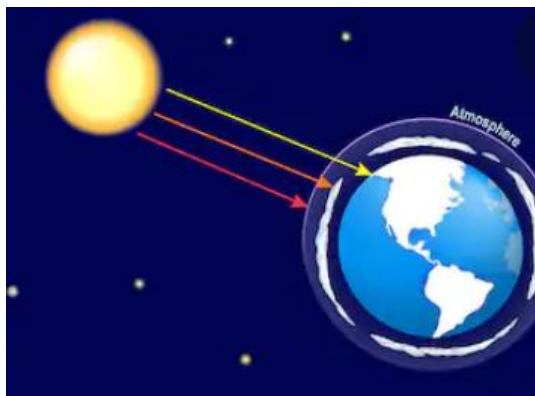

Part II: What impact does air pollution have on the environment?

Label the images below, choosing from the options given, identifying the impacts of air pollution on the environment:

acid rain

global warming

damage to ecosystems

Part III: What can we do as individuals to reduce air pollution?

Write a short paragraph about what you can do yourself to reduce air pollution:

Word bank

cycle
electricity

energy
growing

recycle
reduce

sustainable
transport

vegan
vegetarian
