

### Lesson 5: Recycling Plastics

- I can identify how plastics are recycled.

<https://youtu.be/6xINyWPpB8>

The video was about the story of three plastic bottles. How were the first two bottles harmful to the environment?

**Bottle 1**

---

---

---

---

---

---

---

---

**Bottle 2**

---

---

---

---

---

---

---

---

Plastics are good because .....

.....

Plastics are bad because .....

.....

Bottle 3 was collected by people who value plastics.

Number the steps of how Bottle 3 was recycled!

○ ❖ *shredded into tiny pieces that are washed and melted* → 

○ ❖ *squeezed flat and compressed into a block* → 

○ ❖ *poured into a mould that is in the shape of the final product.* → 

○ ❖ *Different plastics are separated and sorted.* →
