

2. Giving reasons, explain whether the following are true or false:

27 more than -18 is -45.

The temperature is -5°C outside and 23°C inside. The difference is 18°C .

False - the answer is 9. The answer goes through 0, so +18 to 0, and +9 more to 9.

False - the answer is 28°C . The answer goes through 0, so -5 to 0 is 5, and 0 to 23 is 23. $5 + 23 = 28$.
