

Lesson 2: Who was Jesus?

One of the big differences between Christianity and other religions is that Christians believe God had a **son**.

This was a man called **Jesus Christ** who lived 2,000 years ago.

Jesus walks on water

Jesus performed a miracle when he walked on water to save his disciples from a storm.

He encouraged Peter to walk on the water with him, but Peter started to fall down when he did.

It was a miracle because normally it is impossible for people to stand up on water.

Use this page to draw an illustration of the story of Jesus walking on water.
