

## Lesson 6: What is baptism and why does it happen in a stadium?

**Baptism** is a Christian service where holy water is used to welcome someone into the Christian church. It is often done to children but can also be done to adults in a pool of water.

At **Twickenham Stadium** in South West London thousands of Christians meet every year to baptise people together and share a worship service.

**Why might it be good or not good to be baptised in such a way?**
