

SCIENCE

Forces – Lesson 2

VOCABULARY

Repel – push away

Attract – Pull towards

Magnetic – Attracted to a magnet

Magnet - An object or device that attracts iron or another magnetic material.

LEARN

- Read through the vocabulary
- Watch the video clip <https://www.bbc.co.uk/bitesize/topics/zyttyrd/articles/zpvcrdm>
- Today's lesson will focus on magnetic poles.

YOUR TASK

Watch the video and then finish the statements on the Magnetic poles worksheet. You will need to use the words repel or attract. Remember we have used the magnets in school, which may help you to complete the sheet.
