

Make a Whale

You will need:

A piece of A4 paper, a blue or grey crayon, a square of white paper (about 8cm square), ruler, safety scissors, black pen or crayon.

The Body

1. Lay out the A4 paper with a short edge facing you. Pick up the bottom right-hand corner and fold it diagonally across to the long edge to make a triangle. Trim off the extra paper. Colour one side of the paper with your blue or grey crayon.

2. Unfold the triangle to make a square. Fold two opposite corners to the crease to make two long thin triangles.

3. Fold the top corner down to meet the two triangles.

4. Make a 6cm cut here. This will become the tail.

5. Fold the paper in half along the central crease.

6. Draw some eyes and a smile on your whale.

7. Make a small hole at the top. Fold the tail back over the body to the edge of the cut you made earlier. Then fold over once again as shown.

~3cm → ~6cm →

Unfold the tail and separate the two ends of the tail at the cut.

The Blowhole

8. On the 8 x 8cm square of white paper, draw a line 1cm from the edge. Cut strips up to the line as shown.

9. Tightly roll the paper into a tube. Gently open up the strips and curl each one around a pencil to make the water coming out of the whale's blowhole.

10. Slot the water into the hole.
