L.I: I can summarise the key events for a character

### The Endurance Expedition Press Conference

Interviewer: How does this compare to previous expeditions you've been on?

Percy Blackborrow: Well this was erm my first ever expedition and as far as adventures go it was quite something.

Interviewer: Of course, you were just 19 years old when you joined the crew off the coast of Buenos Aires how did it feel to be the youngest member of the crew?

Percy Blackborrow: To be honest I felt comfortable and confident amongst the crew despite my age. I'd already had many valid experiences in my life that made me a valuable member of the crew. But it's true the other men were warm and welcoming and made me feel like one of the team from the offset.

Interviewer: Would you do it again?

Percy: I would say yes to an opportunity like this again I a heartbeat.
