

Planet Earth is on her knees.

Oil in the ocean makes it hard to breathe,  
fish gasping for air.

Smaller bugs swarming around our dirty  
streets and dirty fields.

Landfills growing bigger and bigger,  
fatter and fatter.

Unhappy people living in an unhappy world.

Trees crying out, chainsaws cutting down  
woods ... forests ... jungles ...

Invisible car fumes crawling through the  
grey air.

Over-fishing and empty seas,

Now is the time we must act, before it's  
too late!
