## Worksheet 8

### Making Symmetrical Figures

- 1  puts two drops of paint on each sheet of paper.

The diagrams below show some sheets of paper after they are unfolded. Draw the line of symmetry to show how each sheet was folded.

2  paints a rectangle on the four sheets of paper shown on the left. She then folds each sheet along a line of symmetry. Complete the diagrams on the right to show how each sheet of paper looks after it is folded and then opened up.
