Worksheet 10

Subtracting Money

1 Answer the following.

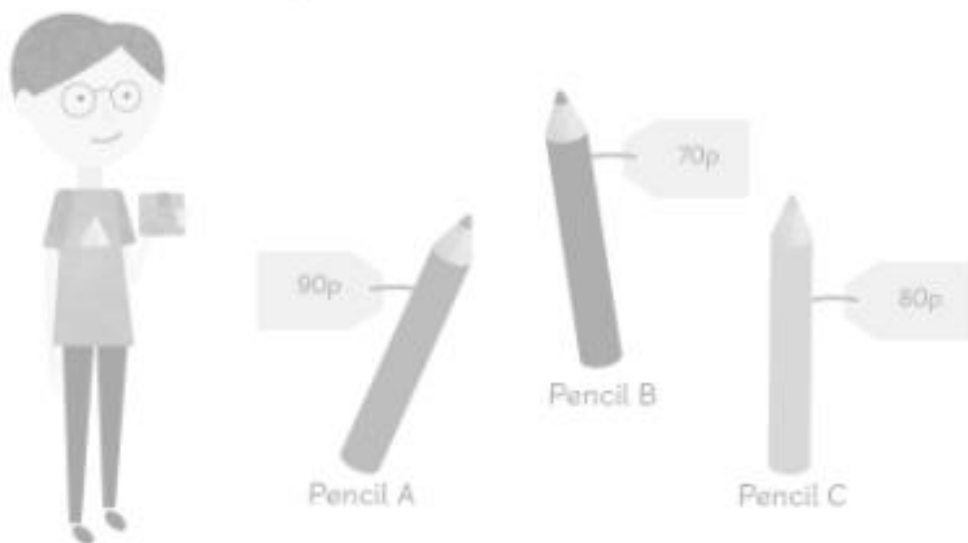

- (a) Amira wants to buy a doll. She gets a 50p discount at the shop. How much does the doll cost after the discount?

- (b) Subtract 50p from £8 and 10p.

- 2 Answer the following.
Charles has £3 and 10p.

- (a) Pencil A costs more than pencil B.
- (b) If Charles buys pencil A, he will have left.
- (c) If Charles buys pencil B, he will have left.
- (d) If Charles buys pencil C, he will have left.
- (e) Pencil D is 20p cheaper than pencil B.
How much money is left if Charles buys pencil D?
