

Lesson 1: What is a synagogue?

Today we are going to learn about what happens in a **synagogue**.

A synagogue is the building in which Jewish people worship.

They can be large, grand buildings like this one in Budapest.

Or they can be smaller and more ordinary buildings like this one in East London.

Label the three clues in this photo of Bevis Marks synagogue that tell us we are looking at a Jewish place of worship

After watching the video make notes about some of the things Jewish people do when they celebrate Shabbat at the synagogue?
