

SCIENCE

PLANTS

WEEK COMMENCING 11th May

VOCABULARY

Blossoms: The flowering part of a plant or tree that will form the seeds or fruit

Roots: The part of a plant that grows downward and holds the plant in place

Seed: The part of a plant which can grow into a new plant

Bud: A small part of a plant, that develops into a flower or leaf

Petal: brightly coloured leaves on a flower

Germination: The phase of plant growth when the seed begins to sprout

LEARN

- Read through the vocabulary ask someone in your home to test you.
- Click on this link to find out who this weeks guest gardener is <https://youtu.be/xb-aEDJ4jkw>
- Click on this link to listen to the story Du Iz Tak? This is a story about a plant growing and the insects talking to each other in a made up language. What do you think they are saying?
